The Treasurer handed out two statements. The first was a three page normal statement for 2 months. On page one receipts over expenses for 1996 ended with surplus of \$12,000. This happened because of more swimmers registered than budgeted 7600 versus 6900. The second statement was an revenue and disbursement spreadsheet. Officers and Chairman would be able to see their budgeted expenses versus actual.

The treasurer reminded members that the proposed budget passed at November meeting may have an increase for registrars contract is due to COLA and increase in number of swimmers. The was increase in the payment to *Swim Magazine* was due to more swimmers being registered with PMS.

In her report, Nancy noted that 47 clubs have not yet re registered. She said not to be discouraged about the year to year comparisons of the number of swimmers reregistrating as the PMS meeting is 10 days earlier than it was last year. Hopefully, each club got a copy registered swimmers and will take appropriate action to be sure that all swimmers are registered

Nancy said that she had bad news she could not give out the Short Course Top Ten. There was a printer error. She will have to send them out. This was the first year that PMS included the results of the National Championship in the Top ten. She estimated that 85 percent of names were changed from the preliminary that did not include Nationals to the Final version that did. It seemed that the number one swimmer before Nationals was lucky to make the Top Ten. She said it was like doing it again.

The redoing of the Top Ten will make difference in swimmer of the year calculations and that the average swimmer does not understand why his best time is not in the Top Ten.

Carolyn Boak thought that the Top Ten should include only local meets swims.

The new design for the Top Time patch was selected. The Committee liked design number 5 which was chosen.
